

**WORLD POWER
AND EVOLUTION BY
ELLSWORTH HUNTINGTON**
Recorded by Leon Harvey for Librivox

World Power and Evolution by Ellsworth Huntington

Every important aspect of human knowledge must be considered in its relation to both space and time. In "Civilization and Climate" the problem of the effect of physical environment upon human progress was discussed in its relation to space. It was shown that the distribution of civilization upon the earth's surface is closely in harmony with the distribution of climatic energy, which appears to be the most important factor in physical environment. In the present volume the same problem is considered in its relation to time. Beginning with the present day we find that from year to year business activities vary in extraordinary harmony with health. Further study shows that variations in health from year to year depend upon the weather far more than upon any other single factor. Total running time: 07:36:07

Preface

- I. The Chart of Evolution
- II. Health and Business
- III. Business Cycles in Foreign Countries
- IV. How Health does its Work
- V. Climate and Health
- VI. The Importance of Variability
- VII. The Voyage of Evolution
- VIII. The Environment of Mental Evolution
- IX. The Origin of New Types among Animals
- X. The Origin of New Types among Men
- XI. The Example of Rome
- XII. The Problem of Turkey
- XIII. Germany and Her Neighbors
